

Agromate™

Power in your hand

Agromate is a telemetric device that operates motor with a mobile phone
JUST GIVE A MISS CALL TO TURN ON/OFF MOTOR PUMP.

Install Agromate device - Spend quality time with your family.

Features of Agromate

- ✔ Switch-ON/OFF the motor without visiting your farm using your mobile. No distance barrier.
- ✔ Works with any service provider's SIM. Just one missed call or SMS to turn ON/OFF the motor.
- ✔ Avoid untimely visits to farm at mid-night and hot sun. Avoid unforeseen dangers.
- ✔ With just one SMS identify whether there is electricity in the farm. When power is restored the device will automatically switch-on the motor and notify the farmer with SMS.
- ✔ Power supply unit that will turn off the device if any phase disconnection happens.
- ✔ Water flow sensor that turns off the motor when there is no water flow and SMS notification will be sent.

Farmers' Prosperity - Agromate's priority
